

## Pumping station Aquapump Medium Mono, STZ 1000, 1800-2250 mm, D

## **Article information**

Item no.: 827730D GTIN: 4026092052099 Price group: 60

## **Advantages**

- height-adjustable upper section
- Preconfigured in the factory
- LW 600 chamber system suitable for underground installation

## Description

The pumping station with sewage wastewater is equipped with one or two submersible pumps and a backflow preventer. The collection tank is an LW 600 chamber system made of permanently resistant polymer (PE-LLD) with open pump tank and universal connection options. Quick-release closures enable the integrated components to be removed easily.

Variant Type of system: Passage seal for conduit pipe (DN): Access steps: Passage seal for ventilation pipe (DN): Installation: Pump control: Backflow preventer: Pressure pipe connection: Chamber system:	Single unit 100 no 100 Wet installation Float switch integrated horizontal LW 600
General characteristics	
Standard:	EN 12050-2, EN 12050-2 as well as EN 12050-1 (without ATEX requirements)
Type of wastewater:	for wastewater with or without sewage (in
Installation situation:	installation situations without ATEX requirements) underground installation
System type:	Mono
