

# Grease separator EasyClean free NS 15, Mix & Pump, right

#### **Article information**

Item no.: 93015-01-MS-R GTIN: 4026092105061 Price group: 60

#### **Advantages**

- Direction of flow can be changed thanks to selfsealing interchangeable hubs (NS 2- NS 10)
- Clean and odour-free disposal and cleaning
- Simple control

## Description

The separator for greasy wastewater is suitable for free-standing set-up in frostprotected rooms and comes without metallic components in the tank. The collecting tank made of permanently resistant polymer (PE) is equipped with an integrated sludge trap and has a tapered base for fast and clean disposal. Two odour-tight covers with quick-release closures make easy access possible for cleaning and maintenance work. The innovative Shredder-Mix-System with integrated macerating system is responsible for homogenising and circulating the tank contents. Cleaning and odour-neutral disposal takes place via an exterior pump with 2-way valve and change lever which can be disconnected from the tank by a shut-off valve. After disposal, a maximum of 3 litres residual sludge volume is left in the tank. Manual control is carried out by a user-friendly control unit that can be integrated into the building management system through a potential-free contact. 20 year polyethylene warranty.
